DTF Transfer for Apparel

Want to Personalize Apparel in your Workshop?

Transfer our DTF Premium Film In-House and GROW YOUR PROFITS!

**WE PRINT,
YOU TRANSFER**

Print Your Design and Transfer it onto any Fabric and Color with High Quality, Durability and Stretchability.

DTF Premium Transfer Films work on Light and Dark Fabrics, in many different colors or garment materials such as Cotton, Nylon, Treated Leather, Polyester, Poly-Cotton Blends, Tri-Blends and many more.

Don't limit your designs: Stunning vibrant colors, gradients, small details, no need for any borders or clear outlines, and a see-through carrier for easy placement in the final apparel.

APPLICATIONS:

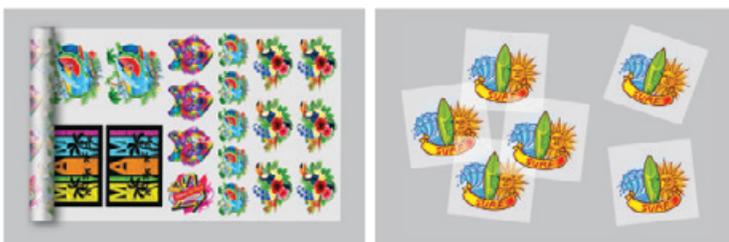

From T-shirts and Hats to Tote Bags and more, our easy-apply and ready-to-press DTF Film allow you to achieve professional results with minimal effort.

UV-DTF Dura-Stickers for Personalization

Want to personalize POP Products in your Workshop?

Transfer our UV-DTF Dura-Stickers In-House and GROW YOUR PROFITS!

**WE PRINT,
YOU PERSONALIZE**

Personalization on Demand: Fast & Affordable!

Personalize hard surfaces on any promotional product, whether in small or large quantities, and save on costs, complexity, and time.

Our UV-DTF Dura-Stickers are printed using UV inks, resulting in vibrant colors. A high-gloss epoxy lacquer layer is then applied, creating a beautiful embossed effect.

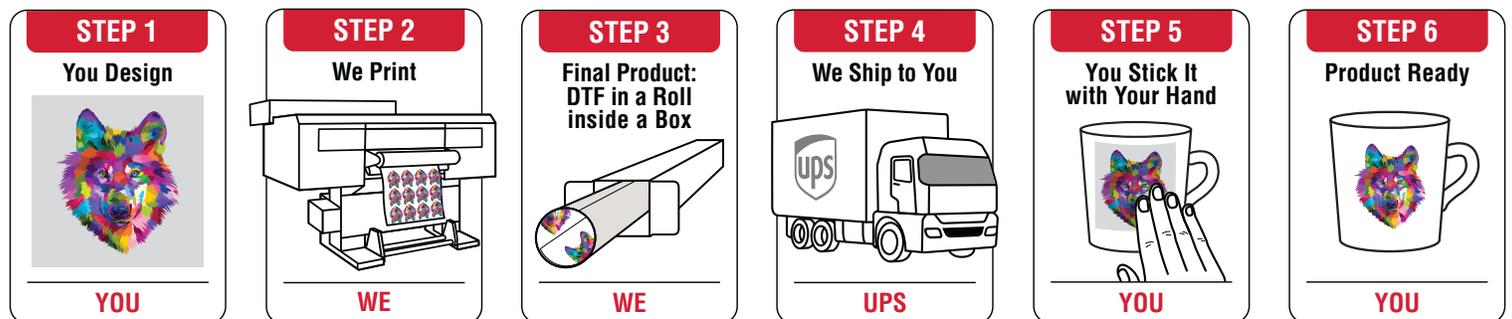

They are exceptionally durable and resistant, suitable for both indoor and outdoor use; and also anti-scratch and dishwasher safe. With a strong and permanent adhesive, they are built to last for years. Printed in high resolution on transfer film, our Dura-Stickers allow for intricate detailing. Unlike regular stickers, they seamlessly blend with the surface, leaving no background.

APPLICATIONS:

You can customize everything: Glass, Wood, Metal, Acrylic, Plastic, Leather, Cardboard, Boxes, etc.
You don't need any special knowledge or tools. It's extremely simple!

PRODUCTION PROCESS:

AVAILABLE BY GANG SHEET OR BY PIECES:
